2027-2028 Academic Calendar

Dear Company Representatives,

The Princeton University chapter of the Society of Asian Scientists and Engineers (SASE) would like to thank you for your interest in partnering with our organization for the 2027-2028 academic year. We sincerely appreciate your time and consideration, and hope that the contents of this partnership packet will provide you with a good understanding of our chapter and the meaningful ways that you can contribute to our mission.

SASE is a national nonprofit organization dedicated to empowering Asian and Pacific Islander (AAPI) students in STEM-based careers through opportunities in professional development, cultural awareness, and community service. Founded in 2023, Princeton SASE has already grown tremendously and established a strong foundation of impactful programs for our members. We are committed to uplifting AAPI science and engineering students at Princeton through pre-professional workshops such as professor dinners, resume workshops, graduate student panels, and alumni speakers. As an expanding chapter, we look to invite companies to pre-professional events to further develop our members' corporate skills and provide networking opportunities.

Princeton SASE also strives to promote AAPI culture through celebrations such as our Lunar New Year Event and workshops in the Food Chemistry of Popping Boba. We aim to give back to our community and partner with organizations such as Heart of Dinner to create colorfully-illustrated bags with handwritten notes, which the organization uses to provide weekly meals to low-income elderly Asian Americans living in isolation.

The Princeton chapter has been dedicated to coordinating travel for our members to the annual SASE National Conference to allow students to learn about careers in industry and academia from AAPI leaders. Each year since our founding, we have been able to send 5-8 students to conferences in Atlanta, Georgia; Boston, Massachusetts; and Pittsburgh, Pennsylvania. Next year, the conference will take place in the U.S. west coast, from October 1st to October 3rd, and we hope to fully fund the travel, accommodations, and entry tickets for 10 students.

We look forward to the possibility of partnering with you as a Corporate Partner for 2027-2028 to expand opportunities for our members. Your partnership means a lot, as it would allow Princeton SASE to take more students to the national conference and expand the reach of our on-campus events. As a Corporate Partner, you will have many opportunities to interact with our talented member base. Your company will also receive a Princeton SASE resume booklet and access to hosting corporate workshops and recruitment events. We hope that you will join us in developing the next generation of leaders and thinkers.

The following pages will give an overview of our members, events, goals, and sponsorship tiers. We are open to any other offers or ideas that you may have, so please feel free to reach out with any questions. Thank you for your interest in our chapter, and we look forward to the possibility of working together.

Sincerely,

Members of Princeton SASE | princeton@saseconnect.org

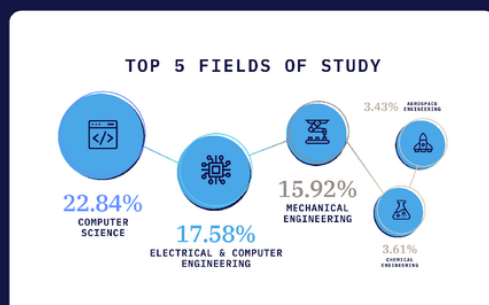

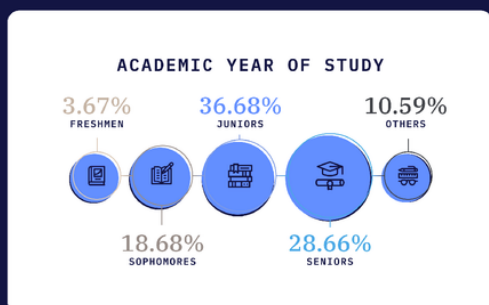

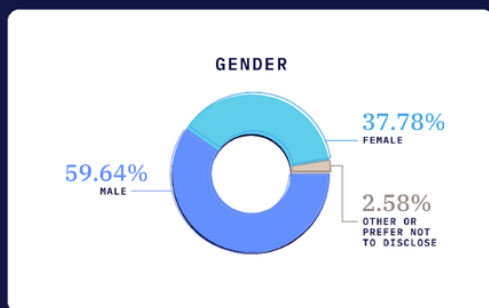

ABOUT SASE NATIONAL

The Society of Asian Scientists and Engineers (SASE) is a national 501(c)(3) nonprofit founded in 2007 **dedicated to promoting AAPI representation in the STEM workforce.** SASE connects students as well as professionals from a diverse range of AAPI backgrounds; the national organization consists of 106 collegiate chapters, 8,250 STEM professionals, and 75+ organizational partners (including Fortune 500 companies).

All chapters uphold a set of the **core missions:**

- To prepare AAPI science and engineering students for success in the global business world
- To celebrate diversity on campus and in the workplace
- To provide opportunities for members to serve their local communities

NATIONAL CONFERENCE DEMOGRAPHICS

NATIONAL CONFERENCE

SASE hosts the **largest AAPI conference and STEM career fair in the United States**, providing members with direct recruitment and networking opportunities in addition to advising access.

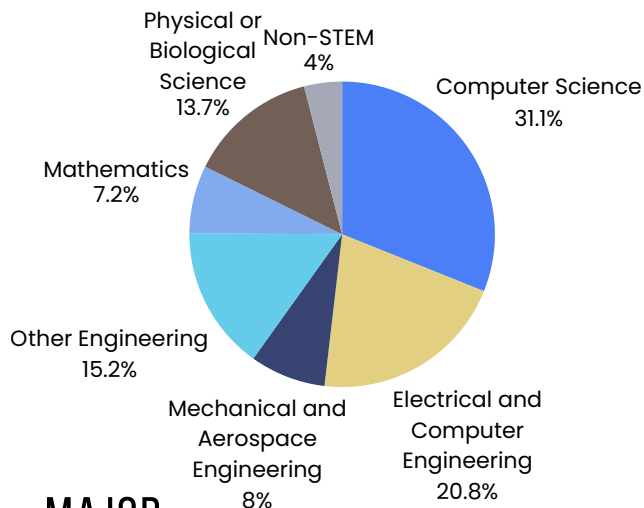

Career Fair: Students connect with recruiters to learn more about employment opportunities (internships, co-ops, full time roles) with commercial and governmental partners.

Panels and Workshops: The conference offers many workshops, panels, and other networking events for attendees, allowing students to polish their resumes, hone their pitching skills, or simply connect with fellow attendees or recruiters.

ABOUT PRINCETON SASE

Princeton SASE consists of undergraduate science and engineering majors at Princeton University. We host professional development events, AAPI cultural celebrations, and community service activities in order to fulfill our mission of empowering and uplifting AAPI students both inside and outside of their careers.

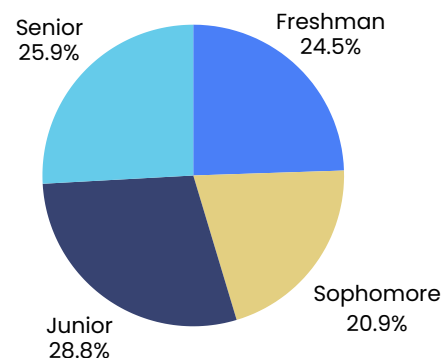

PRINCETON SASE DEMOGRAPHICS

MAJOR

Princeton SASE members come from a range of disciplines, with computer science and electrical and computer engineering representing about 50% of membership. Outside of the academic sphere, our members demonstrate their enthusiasm for advancing science and technology through extracurricular engineering projects, cutting edge research work, and outreach initiatives.

Princeton SASE is composed of an equal mix of students across different class years; this balance helps foster a collaborative community focused on mentorship. Peers are encouraged to share their knowledge and experience, build relations, and work together across all class years.

CLASS YEAR

LEVELS OF SUPPORT

Our chapter offers multiple single lump-sum sponsorship categories for the 2027–2028 academic year, tailored to your company’s engagement goals. Increasing your partnership level elevates your company’s presence on campus, directly connecting your recruitment team with our well-rounded members. The different sponsorship tiers and their corresponding benefits are outlined below.

	Bronze (\$500)	Silver (\$1,500)	Gold (\$5,000)
Company Logo: Your company logo will be featured across all Princeton SASE promotional channels, including our official website, social media platforms, campus club fair materials, and official Princeton SASE merchandise, which is worn by members at regional and national conferences. Your branding will maintain continuous visibility throughout the entire 2027–2028 academic year.			
Resume Booklet: You will receive an exclusive resume booklet including 20+ current Princeton undergraduate students pursuing various STEM disciplines. This curated group from our membership provides a direct connection for your company’s upcoming internship and full-time hiring needs.			
Campus Event of Choice: We provide custom campus engagement through our joint event offer. Partner with Princeton SASE to host a dedicated on-campus event tailored to your recruitment or branding goals. Format options include professional development workshops, corporate presentations, interactive panels, or networking events. Our team will handle the logistical coordination and campus approval process to ensure a seamless event.			

Other Offers:

We welcome the opportunity to customize a partnership package that uniquely aligns with your organization's specific goals. If you have a unique initiative or collaboration in mind, please reach out to our team to discuss a tailored proposition.

EVENTS YOU HELP FUND

ON-CAMPUS EVENTS

PRE-PROFESSIONAL

- **Resume Workshop:** We collaborated with the Center for Career Development to host a talk on how to craft and polish a resume before applying to internships.
- **Graduate Student Panel:** We invited graduate students to share their experiences about research, work-life balance, and grad school applications.
- **Dinner with Professors:** Students asked career-related questions to STEM professors over Thai food.

COMMUNITY SERVICE

- **Heart of Dinner:** We partnered with Heart of Dinner, a nonprofit that helps AAPI elders in NYC access healthy food. Students drew flowers and wrote kind notes on paper bags in order to deliver joy to those who need it. This event was a study break during finals that also served to alleviate stress and give students an opportunity to get creative.

CULTURAL

- **Lunar New Year Celebration:** We made fresh spring rolls to celebrate Lunar New Year. Everyone helped out, from cutting the vegetables to cooking the tofu. It was a great opportunity to build community.
- **Science of Boba:** We held a study break to learn about the chemistry behind popping boba and to try to make some ourselves.

EVENTS YOU HELP FUND

OFF-CAMPUS EVENTS

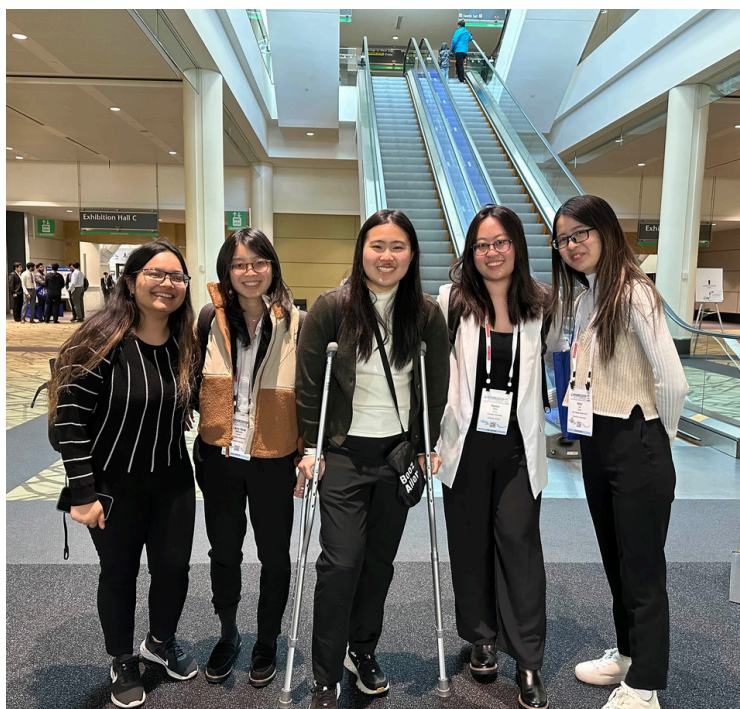

SASE NATIONAL CONFERENCE

At Princeton SASE, we believe any member should have the ability to attend the SASE National Conference. To make this possible, we aim to cover housing, transportation, and food costs for our attendees. The conference itself is an incredible experience, bringing together 75+ companies and 2,000+ students. It is packed with invaluable opportunities to attend professional workshops, meet National SASE Chapter Officers and members from other collegiate chapters, and pitch yourself at the exclusive SASE career fair.

SASE NORTHEAST REGIONAL CONFERENCE

Princeton SASE is also dedicated to eliminating financial barriers for our members to attend the SASE Northeast Regional Conference (NERC). To support their professional growth, we typically cover regional transit and registration fees for our attendees. This regional event offers members a powerful platform to network with leading local companies and fellow East Coast chapters. Key activities include tailored professional development workshops, panel discussions with industry experts, and a regional career fair designed to connect students directly with regional recruiters.

HOW TO DONATE

Interested in donating? Please follow the instructions on how to send tax-deductible gifts to Princeton SASE.

PAYMENT METHODS

Prior to initiating a payment, please reach out to Princeton SASE at princeton@saseconnect.org to confirm your desired package details.

We are able to process tax-deductible donations in either **check** form or via **wire transfer**:

Checks: Please provide your gift as a mailed check payable to the address indicated below, including "Princeton Society of Asian Scientists and Engineers 15837" in the memo section.

Gift Records

PO Box 5357

Princeton, NJ 08540-5357

Legal name is: Trustees of Princeton University

Tax ID number (EIN) is: 21-0634501

Wire Transfers: Please provide your gift via domestic or international wire transfer in U.S. dollars. Full instructions must be solicited from Karen Ehee, Financial Coordinator at karen.ehee@princeton.edu.

Pending additional questions, please feel free to reach out to Princeton SASE. We are more than happy to assist you in ensuring your donation is processed as smoothly as possible!

CONCLUSION

On behalf of Princeton SASE, thank you for taking the time to review our partnership opportunities. Partners like you are vital to our mission of advancing diversity and empowering future AAPI STEM professionals. Through these partnerships, your organization directly invests in the next generation of industry leaders. We strive to provide all of our members equal opportunities to find professional success in academic life through our programming, ranging from targeted career prep and company networking events to peer mentoring and social activities, ensuring well-rounded personal and professional growth.

These impactful programs rely heavily on the generosity of our corporate partners. Your financial backing will directly fund these initiatives, allowing us to provide these crucial development resources and create a deeply enriching collegiate experience for our students that transforms the undergraduate experience for our members and helps them expand their horizons beyond the classroom. The entire Princeton SASE team is incredibly grateful for your support, and we welcome the opportunity to collaborate with you for the 2027-2028 academic year.

If you would like to discuss partnership opportunities, please reach out to us at princeton@saseconnect.org.

Sincerely,
